01 PROFILE

Python developer with almost five years of experience in pet-projects. Have studied many low-level programming languages and DSP processing on various levels, from assembly languages and circuit creation to MATLAB and Python.

02 EMPLOYMENT HISTORY

Jun 2022 — Present

Minsk

Caretaker of a partially incapacitated relative

Following the end of my higher education, a woman with a severe case of brain stroke appeared in the family. Initially, help was needed in everything, so I stepped down from job hunting, and started to help in any way I could, before she was strong enough to fulfill the basic necessities of the organism, with minimal help from my side.

03 EDUCATION

Sep 2005 — May 2018

Minsk

School №12 (Minsk)
